NIKITA NAREYKO

Graphic Designer · Brand Identity

Warsaw, Poland · nikita@nareyko.com · behance.net/NikitNar · linkedin.com/in/nikitnar · t.me/NikitNar

SUMMARY

Graphic designer with a Bachelor's degree in Graphic Design (2026, taught in English) and a Bachelor's degree in Business (Marketing). I design brand identities and visual systems: logos, their application across print and digital formats, and logo animation. I have worked in visual design and marketing for B2B technology companies, and I am currently redesigning the brand identity of a client project, including an animated logo. I use AI tools to explore directions faster and finish the work in Adobe tools.

EXPERIENCE

Marketing Specialist and Visual Designer · Arviser Sp. z o.o., Warsaw · 04/2024 – present

LLM quality audit and AI readiness for product teams (B2B)

- Work on the visual identity of the FairHelm brand (see Selected Projects).

Marketing Specialist · CENOS, Riga, Latvia (remote from Warsaw) · 08/2023 – 03/2024

B2B simulation software for engineers

- Wrote website articles about the products and how engineers use them.
- Created and designed social media posts on features, workflows and industrial applications.
- Prepared campaign materials for B2B product marketing.

SELECTED PROJECTS

FairHelm · client project · brand identity and motion

- Created the original logo of a yacht training academy.
- Now redesigning the brand: new logo, logo animation for a YouTube intro (Full HD), and a new visual identity in development.
- Published the animated logo on Behance: "FairHelm: Animated Logo & Brand Mark".

Vesper Specialty Coffee & Lab · personal project · brand identity (2026)

- Built a logo system in static and dynamic versions on a modular grid with clear-space rules, plus a dark-background version.
- Defined a colour architecture (60/30/10 with a single functional accent) and applied the system to cups, bean packaging, to-go bags, a light-box sign, an info plaque and a loyalty card.
- Documented rejected logo hypotheses and published a 12-module case on Behance.

Framework Fest · personal project · event identity (2026)

- Created a logo based on lens and viewfinder geometry with a construction grid, light and dark versions, and a simplified mark for small formats such as avatars and badges.
- Designed the first festival poster with a colour rule that separates calls to action from contextual information.

SKILLS

- **Design:** brand identity, logo design, typography, layout, colour systems, print materials, presentation design, multi-format adaptation
- **Software (advanced):** Adobe Photoshop, Illustrator
- **Software (intermediate):** InDesign, Figma, After Effects (logo animation), Premiere Pro (video editing), Blender
- **AI tools:** ChatGPT, Gemini, Claude for alternative logo directions and previewing logos inside a brand system; experience with Stable Diffusion
